Professional summary

Computer Science graduate with internship experience in Data Science and hands-on expertise across the ML lifecycle, MLOps, Deep Learning, and GenAI applications. Built and deployed end-to-end machine learning systems using Python, SQL, Airflow, DVC, MLflow, and AWS.

Education

UNITED COLLEGE OF ENGINEERING AND RESEARCH, B.Tech in Computer Science

2021-2025

- **GPA:** 7.45/10
- **Coursework:** Data Structures and Algorithms, Object Oriented Programming, Database Management System

Technical Skills

Languages : Python, SQL

Libraries & Frameworks : NumPy, Pandas, Scikit-learn, TensorFlow, Keras, NLTK, spaCy, LangChain, RAG, LLMs, FAISS, FastAPI

MLOps & Developer Tools : Docker, Airflow, DVC, MLflow, GitHub Actions, Evidently AI, AWS, Power BI, DAX

Database : PostgreSQL, MS SQL Server

Experience

Techzi Academy - *Instructor - Data Science and Analytics*

March 2025 - Ongoing

- Guided 20+ students across 30+ hands-on sessions covering data cleaning, SQL, and dashboard development - achieving 92% course completion and 80% improvement in learner proficiency.
- Conducted 5+ EDA sessions covering statistical analysis, trend identification, and reporting, improving student project quality by 35%.
- Supported aspiring Data Analysts and entry-level Data Scientists through structured problem-solving and case-based learning, driving 70% improved project outcomes.

UPC Solar India Private Limited - *Data Science Intern*

September 2024 - February 2025

- Collaborated with the data science team to clean and analyse 10,000+ sales records, improving reporting accuracy and enabling faster monthly reviews.
- Performed EDA on regional & seasonal sales trends, contributing to **5+ performance dashboards** used in monthly reporting.
- **Applied KPIs** such as CAC, CLV, sales cycle length, and conversion rate, enhancing evaluation efficiency by 25%.
- Assisted in developing **10+ product metrics** for inventory tracking and marketing analysis, strengthening operational decision-making.

Projects

Customer Churn Prediction MLOps | *Airflow, DVC, MLflow, Streamlit, FastAPI* - [Link](#)

- Architected an Airflow-orchestrated MLOps pipeline automating ETL, training, and CI/CD — cutting manual intervention to <10% and pipeline execution time by 60%.
- Integrated **Evidently AI** for real-time data drift monitoring with 95% detection accuracy, triggering automated retraining within <5 min of drift onset.
- Built **FastAPI** endpoints (<200ms latency) + Streamlit dashboard, tracked 10+ MLflow metrics and cut dataset versioning overhead by 85% via **DVC**.
- Deployed on AWS EC2 via Docker + GitHub Actions, achieving 95% **CI/CD automation** and cutting release time from ~2 hrs to <8 min.

PubMed Literature Skimmer | *Deep Learning, Python, Flask, TensorFlow, NLP (NLTK, spaCy), JavaScript* - [Link](#)

- Built a **hybrid BiLSTM** model with token + character embeddings to classify medical abstracts into 5 structured sections, achieving 92% accuracy on 200K+ abstracts.
- Engineered NLP preprocessing pipeline using **NLTK and spaCy**, reducing raw text to model-ready input with <50ms inference time per abstract.
- Deployed as a Chrome Extension via Flask backend, enabling 50+ researchers to skim structured abstracts without leaving their browser - cutting manual reading time by ~40%.

Atliq Hardware Analytics Dashboard | *Power BI, DAX, SQL, Data Modelling* - [Link](#)

- Built a Power BI dashboard consolidating hardware sales across **15+ regions** and **50+ customers**, replacing ad-hoc reports with single source of truth.
- Designed **5 specialised views** (Sales, Finance, Market, Supply Chain, Executive) with DAX-driven KPIs, benchmark comparisons, and role-based access control.
- Optimised SQL data model and refresh strategy, cutting report generation time by 25% and enabling real-time monitoring for business stakeholders.

Certifications

Data Scientist (*Ainwik Infotech*) - [Link](#)

CI/CD for Machine Learning (*DataCamp*) - [Link](#)

Monitoring Machine Learning (*DataCamp*) - [Link](#)

Master MySQL for Data Science (*Udemy*) - [Link](#)

Introduction to Statistics (*Coursera*) - [Link](#)
